To Whom It May Concern

RE: Profica – Project Management

We the Bombela Construction Joint Venture confirm that Profica – Project Management – Africa of 24 Peter Place, Bryanston, Sandton, were appointed by us as Project Managers to oversee the demolition of the old Centurion Rugby Club clubhouse, design and construction of the new clubhouse and the remodelling of two rugby pitches.

The necessity for the Construction arose from the need to remove and replace the old clubhouse to make way for the Gautrain Construction.

The Construction work included:-

- Relocation and reconstruction of one rugby pitch
- Upgrading of one other rugby pitch
- Demolition of the existing rugby club
- Erection of a new single storey clubhouse complete with all facilities required for the proper functioning of a sporting club of this nature.

We further confirm that all of the duties required of Profica were satisfactorily completed and we therefore recommend them for the Project Management of any future Projects of a similar nature.

Yours faithfully,

Ian Connellan
Contracts Manager
